

REVISING SIMPLE PRESENT VS PRESENT CONTINUOUS

We are Susan and Julie. We are friends. Every day, we go to dance class after school because we love dancing. Our teacher always says that we are very good because we work very hard. This week, we are training for two hours every afternoon, when we usually train for one hour only. We are doing that because next month we are dancing in an important contest and we want to win a prize. Dancers eat very well to be fit. We eat cereals with milk for breakfast and some fruit. I love apples and Julie likes pears very much. We often eat fish, meat, eggs vegetables, for lunch or dinner, but we don't have a lot of sweets or cakes. Today it's Saturday, and we aren't training or at school. We are in the park, and we are playing with Julie's dog. He is running and taking the stick that we are throwing. We are happy, the sun is shining and the day is lovely.
